

Bai Dinh Pagoda (Ninh Binh) – Majestic beauty oasis of peace

Located on the slopes, between valleys and rocky immense lake is a temple with monumental architecture, but massive bearing deep tradition, was hailed as the biggest temple complex in Southeast Asia. That is the Bai Dinh Pagoda complex. The temple is located at the west gate vestige Hoa Lu, of Gia Sinh Commune – Gia Vien –Ninh Binh city 15 km, 95 km from Hanoi. Bai Dinh Pagoda populations including an ancient pagoda and a new pagoda was built in 2003. For years, it has become a popular venue, attracting many Buddhists and foreign tourists with [Vietnam visa](#) to visit.

Name Bai Dinh pagoda called meaning is committed towards the mountains, where the heroic events in the history of Vietnam. Bai Dinh Pagoda Mountain is where King Dinh Tien Hoang up the sky bridge esplanade good weather, is the place where the flag ceremony when King Quang Trung Thang Long University Qing break.

Ancient Bai Dinh Pagoda was discovered by the Saint Nguyen Minh No, he was transformed into a temple caves come here looking for chemical plants tiger medicines to king Ly Than Tong. Legend has it that this place has many valuable medicinal plants that the Holy Nguyen Minh No gatherers often brought down the “elixir”. Later many health foods everywhere sought the wealth of medicinal plants for healing for people. In resistance, Bai Dinh was a revolutionary relics of war Quynh Luu district, where leaders of the Communist Party of Vietnam propaganda to the people’s revolution.

Ancient Bai Dinh Pagoda is located on a 187m high mountain, close to the Three power of the new temple is about 800m southeast. This pagoda is located near the top of a fairly quiet mountains, consists of a street in the center, turn to the right is bright Buddhist shrine cave, then god Cao Son Temple at the end of the back door of the cave look bright; Turn to the left is the holy temple worship Nguyen then the maximum availability and first samples. It is located in lands full convergence factor masterpiece with the concept of folk Vietnam, land that is born King, the Holy Birth, Birth Spirit.

In 1997, ancient Bai Dinh is recognized as historical – cultural – national revolution. There is a very interesting thing is that although there is historical temple area formed from the Dinh has many architectural details and antiques bring bold mark of the Ly Dynasty.

The pagoda was built in the style quite popular temple variations in Ninh Binh, no curved roof pagoda roofs or nose comedy executioner, nor the huge pillars, bulky or upper magnificent. Complete the Buddhist altar, church template is placed in the heart of the temple caves u intelligent air reinforces the sacred and mystical meditation gate. Ceiling caves became permanent temple roofs, shielding the sacred place of Buddhism reigns, the form has for centuries now. Bai Dinh and not just a place for people born show piety but also a beautiful landscape. For the past when doing this reason, King Le Thanh Tong has dedicated herself four letters “Ming Peak spots” praised the beauty of this place.

The new Bai Dinh Pagoda (Bai Dinh Tan Tu) is a large project, covering an area measuring 80 hectares, is located across the mountains than in the west pagoda and Hoa Lu ancient capital. Some main categories: electric Tam, France Owner electric, electric Quan, Bao Tower, Bell Tower, and the infrastructure works, accessories, area Buddhist academies, reception areas ...

So, if the throne humble old temple in the mountains, the massive new temple, the outstanding splendor between majestic mountains as beautiful as the place Elysium. Bai Dinh Pagoda are majestic statues carved into the backrest subtle dark green slopes like to bring tourists to the sacred boundaries of the realms and realms continue. Temple populations like glistening jewels, colorful, spiritual convergence gas legendary millennium. New pagoda architecture featuring large cubes, monumental architectural imprints Vietnam and the main raw material used locally: Ninh Binh bluestone, wood quartet set, ceramic tile dark brown Bat Trang... dark brown roof dome, phoenix tail curved main differences of the new architecture Bai Dinh pagoda. The decorative architectural details also bearing the stamp of the famous traditional villages in Vietnam with the contribution of 500 artisans and craftsmen are many organizations from the famous villages such as carpentry Phuc Loc, Ninh Van stone carving, bronze casting Y Yen, Van Lam embroidery, lacquer Cat Dang, Dong Xam silver station... the artisans use local materials to create architectural features of traditional Vietnamese pagodas Bai Dinh.

Today, Bai Dinh Pagoda is considered the spiritual tourist destination Vietnam the most attractive for the record were recorded as: the largest pagoda Vietnam (total 539ha, 27ha own ancient temple, pagoda 80ha), the temple has the longest corridor Asian Arhat (Arhat corridor near the 3 km long), the pagoda has many Arhat statues in Vietnam (500 green rock about 2m high), the pagoda has Vietnam's largest jade wells, the temple has the most number of linden Vietnam (100 linden linden extracted from India), gold-plated bronze statue Asia's largest (100 tone bronze statue in French electric Chairman), the largest bronze Buddha statue in Southeast Asia (Buddha Maitreya outdoor 100 tons), Vietnam's largest bronze bell (bell weighs 36 tons in the Belfry).

Take a time to visit Bai Dinh, step on the stone steps arranged in a moderate slope, gradually to feel the fresh air, cool. Between the sacred, the earth and sky vast, echoing bells, guests will find their hearts at ease, lift off the concerns of everyday life.
